Interactive Vietnamese Learning with **H5P**

Hoan Nguyen
Vietnamese Lecturer, Linguistics, UCSD

The Context

Context

- Heritage Language Program, Linguistics Dept. UC San Diego
- Three levels, ~ 50 students/quarter
- Beginning Class size: 26-30 students

Challenge

How to **maximize learning opportunities** for HL learners in the classroom and beyond?

Solution

interactive w/ **H5P**

What is H5P?

- H5P stands for HTML 5 Package, an open-source, community-driven authoring tool that allows instructional designers to **create, share, and reuse** interactive contents.

- H5P outstanding features:
  - Open source: free to use and share
  - Cross-platform: multiple devices, LMS and CMS
  - Easy to use: examples to adapt
  - Wide range of content types: drills, tasks, games,…
  - Supportive community: educators, developers, learners…

- Try it out: h5p.org / currikistudio.org / lumi.education
